

Welcome to the Almonte Farmers' Market!

Rules for a safe, positive market experience for everyone:

1 — HYGIENE

Hand sanitizer and a wash station are available for your use at the entrance and at every vendor.

We encourage you to use hand sanitizer throughout your visit.

2 – SHOP DON'T STOP!

While we all love visiting at the market, during this time we ask that once you have made your purchases, you exit the market in order to allow others to shop.

3 – ONE SHOPPER PER FAMILY

We know that the market is a great family destination, but that this time we ask that, if possible, each household sends one shopper to keep market traffic moving.

4 – SHOP IN ONE DIRECTION

Once our cheery greeter has indicated that you may enter the market, we ask you to only shop in one direction, following the arrows on the ground.

5 – PHYSICAL DISTANCING

We ask you to line up at least 6 feet apart, and upon entering the market, that you make every effort to maintain that same distance between yourself, other shoppers and the vendors.

6 – LINE UP AT VENDORS WHERE INDICATED

You will see feet on the ground, indicating where to wait in line at each vendor. Once you have paid for your purchase, proceed to pick up your items at the end of the vendor's table, as indicated.

7 – PETS

At this time we regret that dogs are not permitted except guide dogs.

8 – IF YOU FEEL ILL

Anyone who is visibly ill is not allowed into the market. If you feel ill, you should immediately go home or seek medical attention.

Thank you for supporting our farmers' market!
